801 East Main Street  
Radford, Virginia 24212

Dear Mr. David P. Daugherty:

RE: Week 3 Update

Thank you for meeting with us on Thursday. The information you provided has been very helpful.

Over the past week, we have begun working on the Software Requirements Specification document, which will be used to describe the details of the application's purpose, interfaces, features, and requirements. Currently, our primary focus has been to identify and prioritize features. Throughout the coming week our plan is to focus on the interfaces and requirements section of the document.

If you have any questions or concerns, please let us know.

Sincerely,

*Ryan Spoon*
